Bovilis Rotavec Corona Vaccine

ATTENTION:

You will not believe this, a truly remarkable event! Yes Coopers are going to back their new product and actually give you something for all your efforts.

As you well know we have been announcing the impending arrival of the Bovilis Rotavec Corona vaccine. Everyone who has utilised the Bovilis E vaccine (Bovac Ecoli) will all agree just how good it is at reducing calf deaths from diarrhoea.

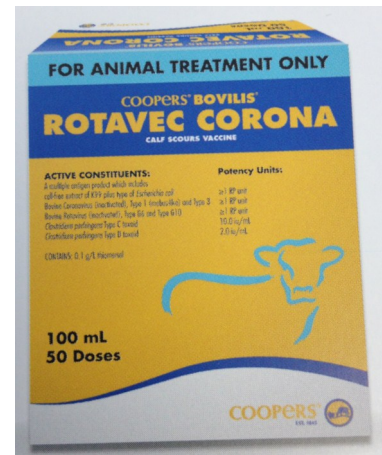

This new vaccine will step up the reduction of calf deaths to viral, as well as bacterial diarrhoea.

Those clever clients who have already vaccinated their cows with Bovilis E will have to revaccinate all their cows with a further two injections of the Rotavec Corona vaccine, one month apart.

This is where the Coopers offer comes in. The company will allow any farmer who has already vaccinated their animals with Bovilis E vaccine in the past twelve months to be reimbursed the value of the first vaccination of the Rotavec Corona vaccine.

This effectively means the farmer, although having to re-vaccinate his herd with two shots will only have to pay for one. WOW!!

Please come into the Clinic and we will discuss exactly what you have to do to receive this offer.

We provide:

- Surgery & Medicine for both small and large animals
- Soft Tissue & Orthopaedic Surgery
- Dentistry
- X-ray & Ultrasound
- In House Blood Testing
- Nutrition & Prescription Diets
- Microchip Identification

Fleas ... Fleas ... Fleas

Many animals are allergic to fleas and it sometimes takes ONE flea bite to trigger a reaction!

Signs of flea allergy include lots of scratching and hair loss around the tail area. Just because you cannot see a flea does not mean they are not on your pets!

NOW is the best time to get the fleas under control before the flea population increases as the

A whole range of products are available including....
